

PEARSON

Shooting a Pearson bow enables you to win money or goods at any tournament in the country under the Pearson Pays Programme. Benefit also from Pearson's great motto. We build it right; we keep it right. For you this means a TEN year warranty on bows. See bows like the new 1984 models Buck, Critter Getter and Diamond Back and the legendary 2300 at your regular archery dealer.

Martin Archery is famous for the greatest range of recurve bows in the world. And in 1984-85 all comers will make way for the incredible Martin Lynx Magnum Compound. Ask the price and compare the features. This split limb bow with aluminium wheels or cams, yoke system and cable guard is the best value in the country. Ask your local dealer.

Pro Line Company make a huge range of economy compound bows. A huge variety of draw length ranges and draw weight ranges. Very moderate prices. Five year warranty.

York has a greatly improved range of bows for 1984: Trophy, Tracker, Express, CNC and Silvertip. New sole distributor of these fine US compound bows with five year warranty.

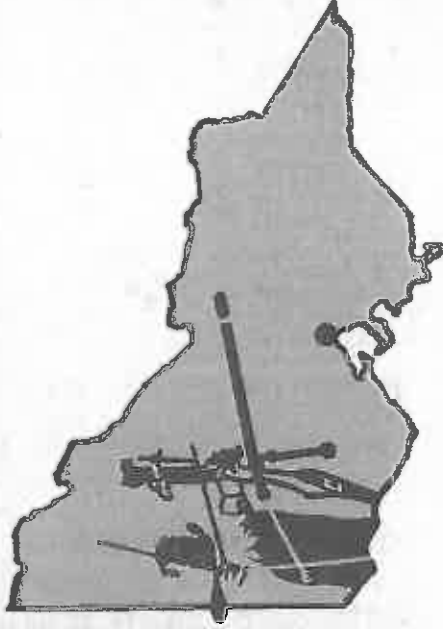

Join the champions from Australia and the rest of the world - use these brands. Catalogues are available from your local stockists.

Hoyt/Easton

GOLD MEDALIST™

The Hoyt/Easton Gold Medalist is the balanced bow no other bowyer can match for performance and stability. The Gold Medalist is all new. Every inch of it reflects Hoyt's tradition of innovation and engineering expertise. The exclusive snap-lock limb mounting system provides precision alignment of limbs and handle. New internal limb adjustment system with positive locking mechanism make tiller and weight adjustments possible. "Vert-Tune", a new Hoyt/Easton patented concept, adds a new dimension to bow tuning by allowing a full 1/4" of vertical adjustment to arrow rest system. Already this bow has established new world records at the 1983 World Championships held in Long Beach, California.

It is truly the most exciting recurve bow yet produced.

FEATURES

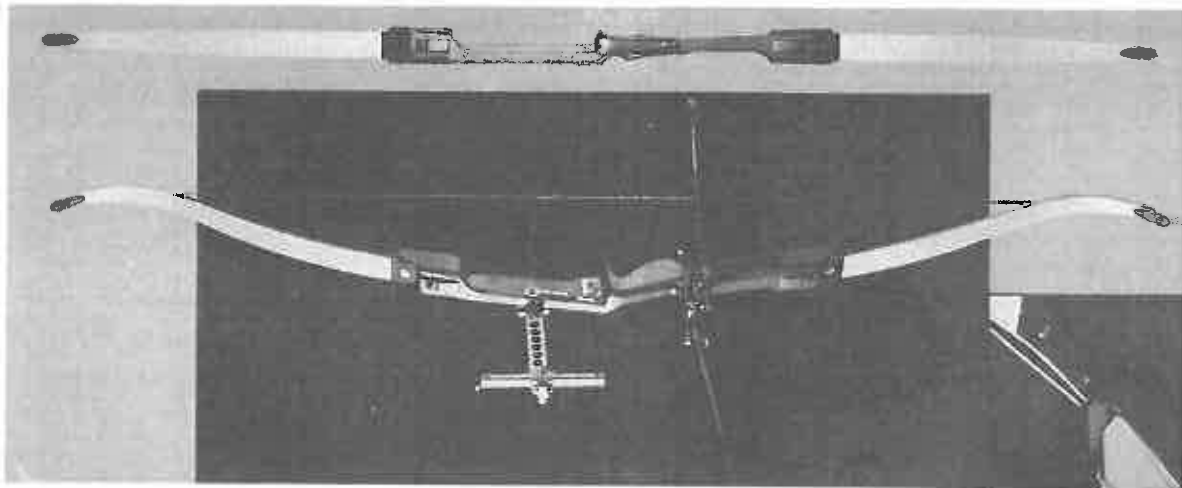

- New classic design, lightweight magnesium handle with 7 1/2" sight window.
- "Vert-Tune" (patent applied for) for a full 1/4" of vertical fine tuning of arrow rest system.
- Center Shot Micro Adjuster System* allows you to dial your arrow rest to the exact degree of center shot.
- Choice of two newly designed aluminum grips for consistent hand placement and increased lateral torque.
- Exclusive limb mounting system aligns limbs and handle with maximum precision.
- Internal limb adjustment (patent applied for) with positive locking mechanism permits approximately 8-10% weight adjustment from the bow's marked weight (no need to remove stabilizers or washing the bow to adjust weight or tiller.)
- Limbs attach without thumb screw, using special dovetail to prevent limb detachment if a bowstring breaks.
- Laminated limbs constructed of premium quality glass, selected hard rock maple cross and wetlayed maple ribs, built as a single unit to assure perfectly matched limbs.
- A full three year warranty on handle and limbs.

SPECIFICATIONS

- Length: 64", 68", 69", 70"
- Colors: Handle—Gold, Red, Blue, Grey, White; Limbs—White.
- Weights: 20# to 50# in 1/4" increments measured at 20" draw length.
- Available in right hand and left hand models

*Available as an accessory.

*Draw length conforms to current AMO standards which measures from the nock to a point 7/8" forward from the center of the plunger hole.
